

The Foundation for Your Career

The BRMP is globally recognized as the standard for Business Relationship Management. Earning your BRMP credential signifies proficiency in the key techniques and skills needed to drive valuable business results. BRMP-certified professionals have a thorough knowledge of understanding business partner needs and how to connect actions to outcomes that have meaningful long-term positive impact to your organization.

Developed by leading experts, this course offers the tools that professionals need to support business growth, increase cross-functional collaboration and align strategy with organizational objectives. These skills are essential to advance your career, no matter what industry you're in.

Connect Relationships to Results

The BRMP Course is offered as an instructor led online, or onsite class. Typically offered as a 3 day training with the exam taken on the third day at the end of the course. The certification exam is included in the training and does not have an extra cost for students. Additionally, the BRMP Guidebook, Participant guide and workbook materials are all included in the cost of the course. The exam format is closed book, 50 multiple choice questions limited to a 50 minute duration. Students should expect a minimum of 30 minutes of study time per night.

Over 97% of BRMP Certification holders say this course equipped them with game-changing skills and knowledge that they could immediately apply in their role.

96% of BRMP Certification holders say this credential has enhanced their earning potential.

Organizations that invest in BRMP training see real results- 96% report improved business outcomes post-cost. Elevate your team's capabilities and drive meaningful change with BRM!

(data collected from candidate survey reports 2021-2024)
